Recent graduate passionate about AI-enhanced development, with experience in frontend technologies (JavaScript, React, AWS DevOps).

Skills

Technical: JavaScript · TypeScript · React · Next.js · Redux · Zustand · UX/UI · Responsive Design · RESTful APIs · API · Web Accessibility (WCAG) · Apollo · Algorithms · Shadow · SQL · GraphQL · Git · Jest · Jira

Development & DevOps: Agile Development · Frontend Development · Vite · Babel · Webpack · Docker · CI/CD · Back-End Integration · SEO Principles · Version Control · Unit Testing · Cloud Infrastructure

Soft Skills: Collaborative · Problem Solving · Communication · Analytical

Work Experience

Frontend Developer - Intern · Remarkskill Education

Jul '21 - Aug '21

- Developed a responsive photography blog website using HTML5, CSS3, and ES6 JavaScript, resulting in seamless user experience across all devices
- Implemented dynamic image galleries and custom animations that increased user engagement by 40%
- Created a mobile-first responsive design that enhanced performance and reduced page load times by 30%
- Completed the full project lifecycle from design to deployment within the internship timeframe.

Projects

Klimate · github.com/harshx3/klimate · Weather web app

- Developed a responsive weather application with React and TypeScript that reduced load times by 30%, enabling users to access real-time global weather data instantly using the Claude AI assisted development tool.
- Crafted an intuitive interface using Shadcn UI and Tailwind CSS, implementing seamless dark mode and accessible design.
- Created interactive data visualizations using chart libraries, which improved user comprehension of weather patterns by 40% and enhanced the overall user experience.

Paste · todo-theta-lilac.vercel.app/ · Text Snippet

- Developed a JavaScript/React-based To-Do App to manage tasks with titles and descriptions, featuring create, read, update, and delete (CRUD) functionality.
- Integrated localStorage for persistent task storage, ensuring data is retained across sessions.
- Designed a responsive and dynamic user interface for enhanced usability.
